Today's office peripherals industry continues to evolve, as solutions are being developed to meet the needs of the market. In fact, the market is poised for significant growth over the next few years. Increased demand for performance-enhancing document technologies in hardware and software presents new opportunities for vendors in these markets. You will need to extend beyond your traditional hardware business models to provide new services and solutions.

To help you prosper in this environment, InfoTrends offers two consulting services that span nearly three quarters of the world office peripherals market: **Digital Peripherals Solutions – U.S. and Digital Peripherals Solutions – Europe.**

These personal consulting services offer executives, senior managers, and product and marketing managers the information and advice that is necessary to outpace the competition and thrive in this dynamic marketplace. These services provide:

- Year-round support for your marketing, product planning, product development, and strategic development decisions
- Continuous information flow with daily, weekly, monthly, quarterly, and annual deliverables
- Unlimited inquiry access to experienced staff
- Online access to published deliverables 24 hours a day
- Access to regularly scheduled Webcasts that discuss industry trends and developments

The **Digital Peripherals Solutions Consulting Service** offers a hierarchy of powerful knowledge tools, from syndicated market information to customized, proprietary consulting. Our consultants help you grow your business by providing knowledge that is geared to your specific challenges and goals.

Deliverable Topics Include:

- U.S. and European Equipment Forecasts for the Copier, Printer, Fax, and Digital Duplicator Markets
- U.S. and European Service and Supplies Forecasts
- U.S. and European Dealer Channel Surveys
- European Future of the Office Document Report
- U.S. and European Color in the Office Surveys
- HP Edgeline End User Analysis
